

Trauma App

Pricing Document

All prices in GBP and subject to VAT (if applicable)

1. Application Licence* [fixed £30,000 annual licence fee]

Subscription to the Trauma App ("App") is a fixed £30,000 per annum licence fee per hospital site. Multi-site discount available as part of wider health board or network procurement (see below).

2. Setup & Installation [fixed £9,500 one-off fee]

The App stores its data in the hospital's self-hosted server infrastructure, which requires a database and a collection of hosted services. The installation process completes this setup in conjunction with the hospital's e-health/IT team ensuring that the App platform lives entirely in the user's control.

Setup and Installation is a fixed £9,500 one-off fee per hospital, or per multi-site procurement*

3. Integrations

The App can be integrated further with the hospital's existing IT systems. Support for these integrations is determined on user requirements and based on the SFIA rate card for consultancy support as it relates to Level 4, 6 & 7 roles only.

3.1 Types of Integration

Authentication	Leverage your existing identity management system (OpenConnect) allowing staff to login using credentials they are familiar with.
Patient Lookup	Enables staff to verify patient details through a lookup service. The trauma app supports identifier lookup from demographics or demographics from patient identifier
EPR Basic	Push PDF case report upon clinical signoff into your EPR.
EPR Extended	Push structured data into your EPR. Physiology, interventions, notes, etc. Pull results and other pertinent data into the case.

Onboarding & Offboarding

Access to online onboarding support & training resources	£0
Online training session (1 hour)	£500
Onsite training session (2 hours)	£1,500*
Offboarding	£1,000
